SHOCKING! SCANDALOUS! TRUE! The proof that Betty Boop started life as a dog! Dennis Nyback, noted film historian and archivist, traces the evolution of this much beloved cartoon character in ten pre-code Max Fleischer masterpieces from his private collection.

Betty Boop was a huge star in the early thirties with a whole line of tie-in products and a nationally syndicated comic strip. By 1939, her popularity had waned and the production of her cartoons was stopped. In the 1960's she was rediscovered by a new generation and became more popular than ever. This program features her first cartoon appearances and shows her cinematic evolution from dog to woman.
